Experience

One Acre Fund

East Africa | Software Developer | June 2016 - February 2018

- Managed two direct reports.
- Led the development of a procurement system that handles millions of dollars worth of requests per year.
- Contributed to the development of web and tablet software that serves thousands of workers and hundreds of thousands of clients.
- Led and participated in discussions to improve our code quality, processes, and team culture.

Engagement Lab at Emerson College

Boston, MA | Software Developer | April 2014 - April 2016

- Collaboratively designed and developed playful approaches to civic engagement, in both supporting and leading roles.
- Worked with a wide range of technology stacks, learning as needed.
- Collaborated with academics, journalists, students, and artists to build platforms for civic engagement, news, and data literacy.
- Managed and mentored student interns.

Emerson Television, Radio, & Film

Boston, MA | Audio Labs Manager | August 2011 - May 2013

- Troubleshot software, including Pro Tools, Reason, Max/MSP, Reaper, Ableton Live, and Final Cut Pro.
- Managed lab technicians.
- Assisted students learning signal flow and recording techniques.

Since February 2018 I have been traveling, writing, providing elder care, and working at Russell's Garden Center in Wayland, MA
